.....

Gas Fitting Notice Number

[Empty rectangular box]

Note:

Waste tanks to be constructed from suitable Stainless Steel, Marine Grade Aluminium, PVC or Fibreglass.

Internal connections must be in accordance with the appropriate plumbing codes.

Pontoons being used as fuel storage will not be accepted and fuel storage tanks will need to be installed.

Vacuum or smoke test for leaks in fuel tanks located in pontoons and not readily accessible.

Visual inspection of pontoons and assessment that pitting or corrosion is not more than 50% of original steel.

Footnotes:

1. Waste outlet height requirements do not apply to the second storey of a two storey houseboat.
2. Ventilation line (minimum 38mm) must be higher than the toilet bowl.
3. Leading guard to be fitted to the front and bottom of all sewerage tanks suspended underneath the houseboat and exposed to potential damage. Minimum 2.5mm flat plate steel to be used. If the outlet line is exposed on the bottom of the tank it should be protected as well.

**PART THREE – REQUIRED REPAIRS**

The following repairs need to be carried out on this houseboat as it currently breaches G-MW By-Laws and/or Regulations. In accordance with these Regulations the owner will be notified in writing by Goulburn-Murray Water and given seven days to affect these repairs or remove the houseboat from Lake Eildon.
