General information and explanatory notes (retain for future reference)

What are the benefits of transferring a Licence to Take and Use Groundwater?

Transferring groundwater entitlement provides existing licensed groundwater users with the opportunity to maximise the value of their licence by selling their unused entitlement, and provides other groundwater users with the ability to purchase additional entitlement in areas where new entitlement is not available.

What are the rules relating to the permanent transfer of a licence?

Rules have been established to allow the permanent transfer of groundwater entitlement while also ensuring groundwater resources are managed in a sustainable manner. The following general rules apply to permanently transfer to Management Zone 2 (groundwater).

- Transfers can occur from groundwater and surface water licence holders located within the Upper Ovens Water Supply Protection Area. Please refer to the information on the GMW website.
- Transferred entitlement may be restricted or prohibited from being used if there are adverse impacts on other users or the environment.
- If the seller's licence is in operational use, the pumping system must be metered according to G-MW's requirements before a transfer can be approved.
- The buyer must have a Licence to Take and Use Groundwater before an application for a permanent transfer can be approved.
- Water cannot be used by the buyer until the transfer has been approved. GMW will notify all parties of the outcome of an application in writing.
- For specific details about trading in your area refer to the fact sheets available from www.g-mwater.com.au/water-resources/ground-water/gwtempfactsheets

You are urged to contact GMW prior to making an application to ensure you have a full understanding of the conditions which apply to the permanent transfer of licence entitlement in your area. For information and maps, please refer to the GMW website at www.g-mwater.com.au/water-resources/ground-water.

How do I know which trading zone and trading rules apply to my licence?

Trading rules have been established under Upper Ovens Water Management Plan. Your licence document lists the management zone applicable to your licence. A copy of your licence can be obtained by contacting the Licensing Unit (fees apply).

Plans and Rules have been established where groundwater has been, or has the potential to be, intensively developed. If you intend to apply for a temporary licence transfer you are urged to contact GMW prior to making an application to ensure you have a full understanding of the conditions which apply to the temporary transfer of licence entitlement in your area. For information and maps, please refer to the GMW website at www.g-mwater.com.au/water-resources/ground-water. Information relating to trading rules applicable to your licence is available from the GMW website at www.g-mwater.com.au/water-resources/ground-water/gwpermfactsheets. If you cannot access the internet please contact the Licensing Unit to request a copy of the relevant Fact Sheets by mail or fax.

Where can I get more information about trading opportunities and current prices in my area?

You should visit the GMW website to obtain information about trading rules and restrictions applicable to your licence before proceeding to locate a buyer or seller for your licence volume. If you are still unsure about the rules you should contact the Licensing Unit to discuss your proposal.

GMW cannot provide you with information on the current market value of water; however you if you decide to proceed with a transfer, information about market activity and pricing can be obtained from your local water broker. Details of brokers in your area can be located in the Yellow Pages or through advertisements in your local newspaper.

How does GMW assess an application?

When assessing an application for the permanent transfer of a licence GMW must consider any impacts on existing authorised users of groundwater and the environment. If this assessment indicates that there is a significant risk of impacting other users or the environment additional information will be required from the applicant. GMW may require that technical investigations, hydrogeological assessments and/or pumping tests

are undertaken to demonstrate that the proposal will not adversely impact upon existing authorised groundwater users and the environment. Completion of this work, if applicable, will be required before the transfer of groundwater entitlement is considered. Please note that the costs of any technical work are paid by the applicant. If you are required to undertake such work you will be notified by GMW.

What happens when I lodge my application?

After you lodge your application GMW will notify you in writing that it has been received. The timeframe to complete an assessment will vary depending on the nature of your application. There may be delays if you are required to engage a consultant to conduct a technical assessment in support of your application. If delays are expected you will be notified by GMW. When the decision has been made to your application you will be notified in writing of the outcome, either that the application has been approved or refused. Application fees are not refundable if an application is refused.

Do I need to meet the new Irrigation Development Guideline requirements?

If the licence being transferred will be used for irrigation an Irrigation Development Guideline Assessment will be required if you intend to:

- irrigate land that has never been irrigated before,
- increase the annual use limit on the land in the current licence, or,
- increase the area allowed to be irrigated in the current licence.

You will be contacted if the Irrigation Development Guidelines apply to you.

Do I have to advertise my application in the newspaper or notify my neighbours (buyer only)?

After you lodge your application, GMW will notify you in writing if you are required to advertise and/or notify your neighbours. GMW will send out the proforma for advertising and notification to neighbours, this will include a reference number which relates to your application. If the volume sought in the application is greater than 20ML you will be required to advertise and notify neighbours, if the volume is 19ML or less, only notification of neighbours will apply.

What volume of water is available to the buyer when a permanent transfer is approved?

The permanent transfer of a licence to take and use water includes:

- (a) Transfer of the licence entitlement for the requested volume from the sellers to the buyer's existing or new licence; and

When can the buyer take and use water under the licence?

The buyer can take and use water upon written confirmation from GMW that the transfer has been approved. Use may be restricted from time to time in accordance with the conditions of the licence.

Are there ongoing costs associated with having a Licence?

Yes, a Licence to Take and Use Water is subject to annual fixed charges, issued by GMW in July each year. For specific details about which charges will apply to your licence, please contact the Licensing Unit.
