

Mitiamo district domestic and stock pipeline

We want to know how you want to be involved as we develop a business case to investigate a reticulated domestic and stock supply for the Mitiamo district.

How you can have a say?

In developing the business case, we want to hear from you, the community, including customers, potential customers, commercial industry and various stakeholders.

We want your feedback and ideas on the best options for a domestic and stock pipeline including the location of a pipeline, size, pricing and tariff structure.

We will use your collective feedback to develop a model for a pipeline that will be presented back to the community.

While one to one consultation throughout this project will largely be delivered by a consultant appointed by GMW, we want to hear from you about your preferred methods for consultation and how you would like to be kept informed.
