

Camping Areas Around Lake Eildon

NOTICE TO BOAT OPERATORS AND GENERAL PUBLIC

FIRES AND CAMPING AROUND LAKE EILDON

Fires and camping are only permitted in designated camping areas around Lake Eildon (see below).

Why?
Unregulated campfires are a potential hazard for bushfires. They also create a problem with accumulation of rubbish and pollution to the domestic water supply.

To minimise these impacts, Parks Victoria provides defined areas where camping and fires are permitted.

Boat-Based Camping Areas

Three Boat-Based Camping Areas are located around the shores of Lake Eildon within Lake Eildon National Park. They are only accessible by boat or foot and provide a more remote camping experience (see map).

- Mountaineer Inlet (top of Aird Inlet)
- Taylors Creek (Big River Arm)
- Coopers Point (Main Arm)

Composting toilets are provided at each site. Fires are permitted only at Mountaineer Inlet and Taylors Creek.

Other Camping Areas

- **Jerusalem Creek Camping Area** - Boat access is from the Jerusalem Creek Inlet. Designated camping sites with basic toilets and fireplaces are provided. Camping fees apply and permits are available at either end of the camping area. Bookings are available through the Parks Victoria web site: www.parkstay.vic.gov.au or Phone 13 1963
- **Fraser Camping Area** - Collier Bay has formal camping facilities with toilets and hot showers. Fires are only permitted in fireplaces provided. Bookings are available through the Parks Victoria web site: www.parkstay.vic.gov.au or Phone 13 1963
