

Application for a new Service Point

What is this application form for?

Use this form to make application for a new Irrigation and/or Domestic & Stock Service Point

Part 1 Application Check List

Complete the checklist. Incorrect information may result in your application being refused.
Your application will be returned if it is ineligible or incomplete.

- Ensure you speak to your local Customer Service Centre to discuss whether this installation is a viable option before completing this form
- Read the accompanying explanatory notes and refer to the current annual fee schedule (which can be obtained by calling 1800 013 357 or downloaded from www.gmwater.com.au) before you fill out the form
- Complete the form in full ensuring all relevant information is provided.
- Complete the checklist. Incorrect information may result in your application being refused. **We will return Ineligible or incomplete applications**
- The Application has been completed, signed by **ALL** persons listed on the land title/s
- Send the form, any required documentation directly to your Area office. (address on last page)
- Goulburn-Murray Water will investigate each application and if approved will provide a Private Works licence agreement for signing and an Agreement document relating to the purchase of the new meter

If approved, up-front payment for the new meter is required according to the Agreement Schedule.

1. APPLICANT/S DETAILS

Please list full names, initials are not acceptable

Goulburn-Murray Water (GMW) collects, holds and manages personal information under the Privacy and Data Protection Act 2014 (Vic). Your personal information collected on this form will be used for the purpose of processing and administering this application and updating GMW's records. Information collected is usually disclosed to staff involved in processing your application, contractors, Connection staff and other relevant GMW staff. At times, GMW may be legally required to disclose personal information, for instance to the police, courts or other authorised organisations. Failure to provide the information sought may result in processing delays or non-acceptance of your application. It may also limit our ability to be able to provide various programs or services. You may gain access to and correct your personal information under the Freedom of Information Act 1989 (Vic). For further information please refer to GMW's Privacy Policy at www.gmwater.com.au or call 1800 013 357 to obtain a copy of this policy.

Part 2 Conditions

1. Domestic & Stock use limitations

- A Small Pipe Outlet (SPO) is used for the supply of Domestic & Stock water for residential Garden, Dairy Shed Use, Stock use and other commercial uses in accordance with **Use of Small Pipe Outlet Private Works Licence**. *It is not to be used for irrigation purposes.*
- Small Pipe outlets are usually limited in size to a 50mm pipe outlet however larger suction lines up to 80mm may be approved upon application if there is a requirement to traverse long distances from the supply.
- Water orders are not required for these outlets and the maximum volume to be used is 10ML/yr.

2. Purchase of Water Entitlement

- The Property will need to hold sufficient Allocation to cover usage in any given season. Water Entitlement can be purchased through private negotiation or an independent Water Broker of your choice.
Note: Additional administration fees are associated with the purchase of Entitlement.

3. Water Supply

- Goulburn-Murray Water (G-MW) does not undertake to supply water outside of the irrigation season. Customers should make adequate provision for the storage of winter supply either through the use of tanks or dams.
- G-MW does not guarantee that water will be fit for any use which may involve human or animal consumption, directly or indirectly, without first being properly treated.

4. Water Use

- If a Water Use Entity is required an additional application form - Application for A Water Use Licence or Water use Registration Form 23, with a current copy of title (less than 3 months old) is required.
Note : Additional administration fees are associated with this application.

5. Works

- G-MW will proceed with the investigation for the installation of a new outlet, on the basis that the owner indemnify G-MW against any claims for compensation in relation to this outlet in the future should the channel be piped, requiring reconnection, or rationalised and supply withdrawn.
- Where the works are approved the applicant must sign a Private Works Licence and must pay for the purchase of the new meter per the Agreement Schedule
- The Corporation will undertake or arrange an approved contractor to undertake the installation in accordance with G-MW Specifications.
- All works to be a minimum of 5 metres from an existing outlet or structure.
- The works are to be inspected and approved by an authorised officer of the Corporation during construction of the outlet.
- All works need to be completed within three months from the application approval. Failure to comply may result in cancellation of the application to install a new service point.

6. Metering

- All new service point installations are to be installed at the customer's expense.
- All new service point installations (commercial or residential) where estimated potential use is more than 10 ML/year are required to have a GMW approved meter.
- Meter installation should be undertaken in accordance with G-MW's meter installation specifications.
- All Domestic & Stock meter installations will be continually monitored for changes to water use practices that may affect the ongoing meter suitability.
- The maintenance and replacement of the connecting pipeline with screen filter shall be the responsibility of the landowner and must be maintained to the satisfaction of the Corporation. When required, approved maintenance works must be undertaken as per the Corporation's request and specifications. The landowner must contact the Corporation and obtain approval before any repairs are carried out.

7. Compliance with Guidelines

- When notice to comply has been served and, in the opinion of the Corporation the customer has not taken satisfactory action, the Corporation may undertake remedial action to remedy the problem if the security of supply to other customers is at risk. In these circumstances, the cost of any remedial action will be borne by the customer.

8. Referrals

- G-MW advise that the applicant may require a Planning Permit from the Local Shire Council or permission from other authorities prior to commencing any works and any approvals given by Goulburn-Murray Water do not satisfy these requirements. It is the applicants' responsibility to obtain all permits and permissions as necessary to undertake works other than those undertaken by Goulburn-Murray Rural Water Corporation.

9. Delivery Share

- If a Delivery Share is required an additional application form - Application for a Delivery Share (Form 34) is required.
- If you already have an existing Delivery Share then an Application to Vary a Delivery Share (Form 35) is required to attached the new service point to your delivery share.
- You can now permanently transfer delivery shares like Water Shares, so you could transfer it from another property that you own or from a neighbour in the same irrigation district. This is pending a channel capacity assessment – Application to Permanently Transfer Delivery Share (Form 36)
- Should you wish not to receive a Delivery Share then you will incur Casual Use fees which are at a higher rate than Infrastructure Access Fees that you would receive if you had a Delivery Share.

Note : Additional administration fees are associated with this application.

TATURA VIC 3616

Or email reception@gmwater.com.au

Note for consideration

Deemed Annual Use

Your deemed water use is the amount of water we have determined you are likely to use annually based on your garden and property size, and stock requirements.

For example, gardens less than 0.1 hectares are deemed one megalitre and gardens between 0.1 and 2 hectares are deemed two megalitres.

Customers are required to have sufficient water allocation in their allocation account to cover the deemed amount.

In the event a meter is not required use will be calculated by deeming.

Residential (irrigated area)	Deemed Use
0-0.1 Ha	1 ML
0.1-2 Ha	2 ML
Stock Use (serviced area)	
Up to 100 hectares	1 ML
100 -200 ha	2 ML
200 – 300 ha	3 ML
More than 300ha	4 ML
