Part 2 Conditions

1. Purpose

- A Small Pipe Outlet (SPO) is used for the supply of water for residential Garden, Dairy Shed Use, Stock use and other commercial uses in accordance with **Use of Small Pipe Outlet Private Works Licence**. ***It is not to be used for irrigation purposes.***
- Small Pipe outlets are usually limited in size to a 50mm pipe outlet however larger suction lines up to 80mm may be approved upon application if there is a requirement to traverse long distances from the supply.
- Water orders are not required for these outlets and the volume used is nominally less than 10ML/yr.

2. Purchase of Water Entitlement

- The Property will need to hold sufficient Allocation to cover usage in any given season. Water Entitlement can be purchased through private negotiation or an independent Water Broker of your choice.

Note: Additional administration fees are associated with the purchase of Entitlement.

3. Water supply

- Goulburn-Murray Water (G-MW) does not undertake to supply water outside of the irrigation season. Customers should make adequate provision for the storage of winter supply either through the use of tanks or dams.
- G-MW does not guarantee that water will be fit for any use which may involve human or animal consumption, directly or indirectly, without first being properly treated.

4. Water Use

- If a Water Use Entity is required an additional application form - Application for A Water Use Licence or Water use Registration Form 23, with a current copy of title (less than 3 months old) is required.

Note : Additional administration fees are associated with this application.

5. Works

- G-MW will proceed with the investigation for the installation of a new outlet, on the basis that the owner indemnify G-MW against any claims for compensation in relation to this outlet in the future should the channel be piped, requiring reconnection, or rationalised and supply withdrawn.
- Where the works are approved. The applicant must enter into a **“Use of Small Pipe Outlet Private Works Licence”** with G-MW and lodge a cheque for the full amount of the metered installation as pre determined by G-MW.
- The Corporation will undertake or arrange an approved contractor to undertake the installation in accordance with G-MW Specifications.
- All works to be a minimum of 5 metres from an existing outlet or structure.
- The works are to be inspected and approved by an authorised officer of the Corporation during construction of the outlet.
- All works need to be completed within three months from the application approval. Failure to comply may result in cancellation of the Small Pipe Outlet permit.

6. Metering

- All new Small Pipe Outlets are to be installed at the customer's expense.
- All new SPO (commercial or residential) where estimated potential use is more than 10 ML/ year are required to have an approved magflo meter.
- Meter installation should be undertaken in accordance with G-MW's meter installation specifications.
- All SPO meter installations will be continually monitored for changes to water use practices that may affect the ongoing meter suitability.
- The maintenance and replacement of the connecting pipeline with screen filter shall be the responsibility of the landowner and must be maintained to the satisfaction of the Corporation. When required, approved maintenance works must be undertaken as per the Corporation's request and specifications. The landowner must contact the Corporation and obtain approval before any repairs are carried out.

7. Compliance with Guidelines

- When notice to comply has been served and, in the opinion of the Corporation the customer has not taken satisfactory action, the Corporation may undertake remedial action to remedy the problem if the security of supply to other customers is at risk. In these circumstances, the cost of any remedial action will be borne by the customer.

8. Referrals

- G-MW advise that the applicant may require a Planning Permit from the Local Shire Council or permission from other authorities prior to commencing any works and any approvals given by Goulburn-Murray Water do not satisfy these requirements. It is the applicants' responsibility to obtain all permits and permissions as necessary to undertake works other than those undertaken by Goulburn-Murray Rural Water Corporation.

9. Delivery Share

- If a Delivery Share is required an additional application form - Application for a Delivery Share (Form 34) is required.
- If you already have an existing Delivery Share then an Application to Vary a Delivery Share (Form 35) is required to attached the new service point to your delivery share.
- You can now permanently transfer delivery shares like Water Shares, so you could transfer it from another property that you own or from a neighbour in the same irrigation district. This is pending a channel capacity assessment – Application to Permanently Transfer Delivery Share (Form 36)
- Should you wish not to receive a Delivery Share then you will incur Casual Use fees which are at a higher rate than Infrastructure Access Fees that you would receive if you had a Delivery Share.

Note : Additional administration fees are associated with this application.
