General information and explanatory notes (retain for future reference)

Why do I need a Licence to Take and Use Surface water and Operate Works?

If you wish to access water you will be required to apply for a licence to take and use water and operate the works. A Licence to Take and Use surface water authorises the licensee to extract surface water and use it for domestic and stock, irrigation, commercial and other licensed purposes. A licence to operate works authorises the licensee to use the service point to extract water

Under very limited circumstances you may have what is called a *private right* to access water for domestic or stock purposes. You should contact the Licensing Unit prior to taking any water. A landowner can make application to the Authority for a private right determination.

How long is a licence valid?

A licence is generally issued for a term of up to 15 years. If during the term of a licence an application to amend the licence is approved, the amended licence will only be issued for the remainder of the original term.

Can I get access to an entitlement under my licence?

You will need to purchase existing licence entitlement and make application for a temporary or permanent transfer. Applications are subject to approval by GMW and specific rules apply to particular catchments and waterways. Should you require further information contact the Licensing Unit or GMW's website <http://www.g-mwater.com.au> or contact your local water broker.

What is a winter fill Licence?

A Winter Fill Licence entitles the holder to take water to fill a dam, tank or other storage, or apply directly to a crop during the period from 1 July to 31 October annually. All flow occurring outside of this period must be passed downstream.

Can I include lands onto my existing licence which are non-contiguous?

No, all lands must be adjoining, except where the parcels of land are separated by a road or stream. Other exceptions may apply; however, you should contact the licencing team for further clarification.

Do I need to meter?

Works must be metered when requested by the Authority. Once a meter is installed it becomes the property of GMW to maintain.

What does the application fee cover?

Application fees cover the full cost of undertaking a licence assessment in accordance with GMW's obligations under the Water Act 1989 (Vic).

If your application is approved, the new licence will be recorded in the Victorian Water Register and you will receive a copy of the licence document.

Are there ongoing costs associated with having a Licence?

Yes, a Licence to Take and Use Water and Operate Works is subject to annual fixed charges, issued by GMW in July each year. For specific details about which charges will apply to your licence, please contact the Licensing Unit on 1800 013 357.

Do I have to advertise my application in the newspaper or notify my neighbours?

After you lodge your application, GMW will notify you in writing if you are required to advertise and/or notify your neighbours. GMW will send out the proforma for advertising and notification to neighbours, this will include a reference number which relates to your application. If the volume sought in the application is 20ML or greater you will be required to advertise and notify neighbours, if the volume is 19ML or less, only notification of neighbours will apply

What happens after I lodge my application?

After you lodge your application GMW will notify you in writing that it has been received. The timeframe to complete an assessment may vary depending on the nature of your application. There may be delays if you are required to engage a consultant to conduct a technical assessment in support of your application. GMW cannot make a decision in relation to an application until all relevant information is received (this includes notification to neighbours and advertising). If delays are expected you will be notified by GMW. When the decision has been made to your application you will notified in writing of the outcome, either that the application has been approved or refused. Application fees are not refundable if an application is refused.

Additional Application Requirements

Aboriginal Cultural Heritage

In Victoria, Aboriginal cultural heritage is protected and managed under the *Aboriginal Heritage Act 2006* (“the Act”) and the *Aboriginal Heritage Regulations 2007* (“the Regulations”). GMW has an obligation to ensure applicants are made aware of their obligations under this legislation.

Under the provisions of the Act a waterway, or land within 200m of a waterway, may be considered an area of cultural heritage sensitivity.

To determine if the site of your proposed works may be in an area of cultural heritage sensitivity you can access an interactive map at: <http://www.dpc.vic.gov.au/index.php/aboriginal-affairs/heritage-tools/areas-of-cultural-heritage-sensitivity>.

The installation of new pumps and/or attached pipelines normally occurs on or near a waterway so it is likely that these works may be located in an area of cultural heritage sensitivity.

If works are proposed to be constructed or altered as part of a licence application, applicants need to be aware of their obligations under the Act and its Regulations.

Applicants should also be aware that if your proposal to install (or alter) works meets the criteria for a high impact activity under Regulation 43 of the Act you may be subject to further obligations.

High impact activities include, among other things,

- the installation of any works affecting an area exceeding 25 square metres.
- the works are a linear project that is the construction of a pipeline (of any diameter) with a length exceeding 500 metres; or
- the works are a linear project with a length exceeding 100 metres (with a pipe diameter not exceeding 150 millimetres).

If the construction or alteration of works is considered a high impact activity and occurs in all or part of an area of cultural heritage sensitivity you may be required to prepare a Cultural Heritage Management Plan (CHMP).

You can check whether a Cultural Heritage Management Plan is required by accessing the “Aboriginal Heritage Planning Tool” developed by Aboriginal Affairs Victoria. The interactive online tool will guide you through a series of questions to help you determine your obligations. The website also has information to assist you with contacting the relevant Registered Aboriginal Party or Cultural Heritage Advisor if you require further assistance.

You should access the tool available at <http://www.dpc.vic.gov.au/index.php/aboriginal-affairs/heritage-tools/areas-of-cultural-heritage-sensitivity> and print a receipt of your results for inclusion in your application.

If you do not have access to the internet please contact the Licensing Unit for further assistance.
