General information and explanatory notes

Why do I need to Transfer the existing Private Works Licence?

If you wish to utilise a private structure on Goulburn-Murray Water Asset or Land (including land in which an Easement is in place in favour of GMW), you must first obtain an Executed Construction & Use of Private Works Licence from Goulburn-Murray Water. This process ensures that the integrity of GMW's assets and systems is not compromised and that the time of the proposed works, will not interfere with GMW's operations. When purchasing land where Private Works are already constructed, you will be required to take ownership of the works to enable ongoing use. This process is formalised by transferring the Licence from the previous Licensee to the Purchaser.

How long is a licence valid?

A Construction & Use of Private Works Licence is generally issued for a term of 15 years.

Can I transfer the licence?

The Construction & Use of Private Works Licence may be transferred by completing this form, signed by the current Vendor and Purchaser and forwarding to GMW for processing. Please note: The licence does not automatically transfer upon change of ownership. A fee is payable to transfer the licence.

What does a Private Works Licence authorise?

A Private Works Licence authorises you to use works located on GMW's land or assets. You become responsible for and own the works.

This licence does not allow you to take or use water. For any dealings with water entitlements contact Water Administration on 1800 013 357

What does the application fee cover?

Application fees cover the full cost of undertaking a licence assessment in accordance with GMW's obligations under the *Water Act 1989 and Recreational By-Laws*.

If your licence is approved it will be recorded in GMW's Asset database for the purpose of identifying all structures/works on GMW's land or assets.

Are there ongoing costs associated with having a Licence?

Yes. A licence renewal fee is applicable every fifteen years.
