FIXED ANNUAL FEES AND CHARGES

When are fees payable?

Fixed Annual Fees and Charges are due by the following Due Dates:

SERVICE TYPE	DUE DATE
Customer, Water Delivery, Surface Drainage, Subsurface Drainage, Diversion, Water Supply, Flood Protection, Entitlement Storage ^a	16 December 2021 ^{b,c}
Bulk Water, Regional Urban Storage Ancillary Fee	16 December 2021 ^d
Houseboats	30 June 2021 ^e

- Entitlement Storage**
Holders of delivery share in the Goulburn Murray Irrigation District (GMID) who receive water shares as part of the Irrigators Share Distribution will receive an amended fixed charges account to include those water shares after the distribution in October 2021.
- Payment Options**
Pay your Fixed Charges Account in full by 16 September 2021 and receive a 2% discount or pay in full by 16 December 2021 with no discount. We are also offering instalment options for 2021/22 Fixed Charges Accounts. Pay 8 equal instalments of 12.5% on the 16th of each month, starting on 16 September 2021 with the final payment due on 16 April 2022.
- Concessions**
There is a Victorian Government concession available upon application, to eligible persons for the services defined in the Concession (Water Corporation) Order 2013 (as amended from time to time). The Water Concession is 50% on Fixed Charges Accounts, with a maximum cap for 2021/22 set at \$172.72.
- Bulk Water**
Except for City West Water, South East Water and Yarra Valley Water for whom the due date is 31 May 2022.
- Annual Licence Fees** must be paid by 30 June 2021.

VARIABLE FEES

Variable fees and charges are payable within 30 days of the Invoice Date.

SERVICE TYPE	INVOICE DATE
Water Delivery ^a , Surface Drainage ^a , Subsurface Drainage ^a , Water Supply	16 July 2022
Entitlement Storage, Bulk Water	16 July 2022 ^b

- Customers in Shepparton, Central Goulburn, Rochester, Rochester-Campaspe, Loddon Valley, Torrumbarry and Tyntynder areas of Goulburn Murray Irrigation District whose property has used 20ML by 1 March 2022, may also receive an interim variable charges account with a due date of 30 April 2022.
- Applies only to Above Entitlement Storage.

MISCELLANEOUS FEES AND CHARGES

Miscellaneous fees and charges are payable on application.

INTEREST

Interest shall be payable in respect to all amounts payable under a fee or charge if the amount is not paid by the due date. The interest rate applicable to amounts not paid by the due date calculated in accordance with the Water Act 1989 (Vic) is 2.9% for the 2021/22 Financial Year. Prior to applying interest we will inform the customer when interest is to be applied to the outstanding amounts. Interest will not be payable on overdue account balances by customers who enter into and comply with a payment arrangement. This applies for balances from a prior period where a payment arrangement is still in force. Payments are applied on the following basis: Legal costs owing (if any); Interest owing (if any); Arrears owing (if any); Current rates and charges (divided evenly across all charges), unless otherwise requested by the owner.

HOW OUR FEES AND CHARGES ARE DETERMINED

GMW determines fees and charges for the forthcoming financial year following consultation with customers. Customers may participate or provide feedback on GMW's process for setting its fees and charges by calling us on 1800 013 357 or emailing us at reception@gmwater.com.au

Our regulated and prescribed annual and miscellaneous fees and charges are approved by the Essential Services Commission.

Planning and management charges are charges determined by or on behalf of an agency of the Commonwealth or an agency of a State, excluding charges determined by a local government body. The Minister for Water delegated certain functions and responsibilities under the Water Act 1989 (Vic) to GMW in the Instrument of Delegation dated 13 December 2019. This includes determining fees for the issuing, varying or cancelling of water use or works licences. Additionally, Water Share and Allocation Application fees and charges and fees and charges related to the Victorian Water Register, excluding the Water Register Fee, are prescribed under Victorian regulations¹².

Tariffs for Customer, Water Delivery, Surface Drainage, Subsurface Drainage, Water Supply, Flood Protection, Entitlement Storage service types are calculated in accordance with the 2021/22 Tariff Procedure, which is available at www.gmwater.com.au/pricing and GMW's office located at 40 Casey Street, Tatura 3616.

FURTHER INFORMATION

For further information in relation to your fees and charges, please also see our Customer Charter at www.gmwater.com.au/customer-charter

ENQUIRIES

If you have any questions or wish to dispute your bill, please phone 1800 013 357 or for other options, please visit our website at www.gmwater.com.au/feedback or email ComplaintsMgtSys@gmwater.com.au

UNDERSTANDING YOUR FEES AND CHARGES

Above Entitlement Storage Fee is payable by customers who hold more water in storage than their entitlement volume.

Access Fee recovers the costs of ensuring water is accessed in line with management rules and plans. This includes the management of allocations, rosters, restrictions and water ordering. This fee is payable by customers with a surface water licence.

Area Fee recovers a proportion of the costs of operating, maintaining and renewing the drainage network that services your irrigation district. This fee is payable by customers in the irrigation districts.

Bulk Water Entitlement Fees are payable for the storage and the delivery of water to Irrigation Infrastructure Operators, operators of reticulated water systems, and customers who divert bulk water directly from a watercourse for use and is made available through a service that is provided for the storage or delivery of water that is primarily stored or delivered on river relating to the Murray-Darling Basin. These fees are payable only by customers with bulk entitlements or environmental entitlements.

Capital Charge for New Groundwater Entitlement relates to the sale of a groundwater entitlement. This is a one-off charge per megalitre where space is available under management area groundwater caps. See www.gmwater.com.au/water-resources/ground-water/groundwater-capital-charge for more information on the Capital Charge for New Groundwater Entitlement.

Community Surface Drainage Fee recovers the cost of administering the community surface drainage scheme in your area. This fee is payable by the owner of a property within a district or area, who is a participant in a community surface drainage scheme.

Customer Fee recovers the administrative costs of maintaining your land and water records, billing, debt management and central customer service. This fee is payable by all of our customers.

Delivery Share Reservation Fee applies to landowners in irrigation districts who choose to reserve access to delivery systems for a limited period while they are developing or expanding agricultural enterprises.

Distribution Access Fee is equivalent to the Infrastructure Access Fee but is payable by an urban water corporation whose bulk water is delivered by irrigation and/or water supply districts.

Distribution Use Fee is equivalent to the Infrastructure Use Fee but is payable by an urban water corporation whose bulk water is delivered by irrigation and/or water supply districts.

Drainage Diversion Agreement Fee recovers the cost of managing access to water available in the drains in your irrigation district. This fee is payable by Customers with a Drainage Diversion Agreement.

Drainage Diversion Site Fee recovers the costs of managing, maintaining and renewing drain diversion service points in your irrigation district. This fee is payable by customers in the irrigation districts. Drainage Diversion Site (High Flow) Fee recovers the costs of managing, maintaining and renewing high flow diversion service points in your irrigation district. This fee is payable by customers with Drainage Diversion Agreements.

Entitlement Storage Fee covers the cost of operating and maintaining water storages that service your regulated river system. The costs are charged per ML of the type of entitlement you hold. This fee is payable by customers with water shares for regulated rivers.

Event Fees are charges for private, community or commercial events on or near GMW's waterways and are charged per day. See www.gmwater.com.au/recreation-tourism/event-permits for more information on Event Fees.

Flood Protection Fee relates to the Loch Garry structure mitigating flooding for a defined area. This fee applies for each hectare in the Loch Garry area to recover the costs of operating and maintaining the structure. This fee is payable by all customers in the Loch Garry district.

Groundwater Application Fees are payable in relation to applications for licences to undertake works relating to groundwater or to take and use groundwater.

Houseboats Fees relate to applications for a licence and holding a houseboat licence at Lake Eildon. See www.gmwater.com.au/recreation-tourism/houseboats for more information on Houseboats fees.

Information Statements and Special Meter Reading Fees are payable in relation to applications for information on the Water Register.

Infrastructure Access Fee applies to the amount of MLs per day of delivery share you hold and it recovers a portion of the cost of operating, maintaining and renewing the delivery network in your irrigation area. The delivery network can include channels, pipes, bridges, road crossings, siphons and subways. This fee is payable by irrigation and D&S customers with delivery shares.

Infrastructure Use Fee recovers a portion of the costs of operating, maintaining and renewing the delivery network in your irrigation area. The fee applies per ML of water used during the season on your property. This fee is payable by irrigation and D&S customers with delivery shares. The Casual Infrastructure Use Fee applies to each ML of water you have delivered during the season in excess of your Annual Delivery Allowance.

Irrigation Districts Application Fees are fees and charges applicable to the Shepparton, Central Goulburn, Rochester-Campaspe, Loddon Valley, Murray Valley and Torrumbarry irrigation districts.

Local Benefit Area Fee recovers a portion of the costs of providing subsurface drainage services in your irrigation district. This fee is payable by customers in the irrigation districts.

Local Benefit Water Use Fee recovers a portion of the costs of providing subsurface drainage services in your irrigation district. This fee is payable by customers in the irrigation districts.

Municipal Local Benefit Area Fee recovers a proportion of the costs of operating, maintaining and renewing the drainage network that services the municipal area from local government entities.

Private Dam Fees are fees and charges related to applications for the registration of privately-owned farm dams or licences to take water from privately-owned farm dams.

Recreation and Land Management Miscellaneous Fees are miscellaneous fees and charges relating to applications for licences, works permits, land developments and other additional fees.

Regulated Rivers and Streams Application Fees are miscellaneous fees and charges related to the Murray-Darling Basin Authority or GMW's weirs, storages or dams on the river system to control the flow of water.

Resource Management Fee recovers the costs of developing, managing and reviewing resource management plans for unregulated surface water and groundwater. This fee is payable by customers with groundwater licences for purposes other than for domestic and irrigation purposes. Regulated surface water diverters do not pay this fee; instead, they pay the Entitlement Storage Fee on water shares they hold.

Regional Urban Storage Ancillary Fee recovers the costs of managing the recreational component of storages which are not recovered by leasing and licensing fees. This fee is payable by Urban Water Corporations who hold bulk water entitlements.

Subsurface Drainage Fee recovers the costs of providing subsurface drainage services in your irrigation district. This fee is payable by customers in the irrigation districts.

Service Point Fee – Diversions

Applicable to Surface Water and Groundwater Diverters. These cover the costs of compliance, monitoring, measuring use and, where installed, maintaining meters at each diversion site:

- » Service Point Fee – Unmetered refers to service points that do not have a meter installed, or are used only for domestic and stock purposes.
- » Service Point Fee – Metered (excluding domestic and stock) refers to service points where a meter is installed and is used for purposes other than domestic and stock.

These fees are payable by customers with surface water licences and/or groundwater licences.

Service Point Fee – Water Delivery and Water Supply

recovers the costs of operating and maintaining service points (meters and outlets) which connect your property to our assets in your irrigation or water supply district. In relation to water supply districts, this fee will only apply in relation to the domestic and stock service point. In relation to irrigation districts, this fee applies for each of the following service points:

- » Domestic and Stock (D&S) fee recovers the costs of operating and maintaining domestic and stock service points.
- » Local Read means a service point that is manually operated and the meter reading is manually collected.
- » Remote Read means a service point with some electronic features which is manually operated and the meter reading is automatically recorded.
- » Remote Operate means a service point with electronic features that is automatically operated and the meter reading is automatically recorded.

These fees are payable by irrigation and D&S customers.

Technical Advice for High Risk or Complex Applications

Fee is charged for advice provided by GMW regarding high risk or complex licence applications. For example, this fee may be charged in relation to obtaining additional information such as a report of Hydrological and/or Ecological assessments for unregulated surface water applications.

Termination Fee is charged to a customer who holds a delivery share if they terminate all or part of that share.

Unregulated Rivers and Streams Application Fees are miscellaneous fees and charges when the flow in the river or stream is not controlled by Murray-Darling Basin Authority or GMW's weirs, storages or dams.

Water Allowance Storage Fee recovers the costs of operating and maintaining the water storages that store water for water supply districts. This fee is payable by water supply customers.

Water Share and Allocation Applications relate to applications to transfer, divide, consolidate, issue, cancel, vary etc. water share and/or water allocations.

Water Supply District Application Fees are miscellaneous fees and charges applicable to the Tungamah, East Loddon, East Loddon North, West Loddon, Normanville and Mitiamo districts.

Water Register Fee recovers the costs of storing your records on the Victorian Water Register (Register) and is levied based on the number of your water entitlements. Examples of water entitlements are bulk entitlement, water share, section 51 licence, supply by agreement and water district water allowance. This fee is payable by all customers with water entitlements stored on the Register.

Water Use Fee recovers a portion of the cost of operating, maintaining and renewing the drainage network in your irrigation district.

Our customers

We provide services and works to:

- Irrigation customers
- D&S customers
- Environmental watering customers
- Urban water supply customers
- Water investment customers
- Flood protection customers
- Recreation customers
- Commercial leasing customers
- Farm dam registrations and Private Rights customers
- Contract services customers
- Power generation customers
- Water District customers
- Drainage customers
- Groundwater customers

Water resource

Our annual and miscellaneous fees and charges relate to Murray-Darling Basin water resources.

NOTES

1. Infrastructure Access fees for water delivery in the Goulburn-Murray Irrigation District (excluding Woorinen) are set for the period 15 August 2021 to 15 May 2022.
2. These fees are indicative: The figures shown will generally apply to terminations requested to apply within 6 months of a customer submitting a written information request. For terminations requested to apply more than 6 months after the written information request is submitted, the termination fee will be the fee that is applicable at the date of termination and calculated in accordance with Part 10 of the Water Charge Rules 2010 (Cth) as at the termination. This termination fee will form part of the Termination Information Statement given to the customer.
3. Prices applied only relate to the 'Area Fee' and 'Water Use' Fee. There are 8 Drainage Divisions. The Fees listed are for the 1st Division. Adjustments are made for other Divisions as applicable. Please refer to the 'Tariff Procedures' on our website: www.gmwater.com.au/pricing
4. Prices applied are for Service Level A / Drainage Division 1. Adjustments are made for various Service Levels / Divisions in the applicable Areas. Please refer to the 'Tariff Procedures' on our website: www.gmwater.com.au/pricing
5. Regulated Waterways are a natural system of streams, creeks and rivers that are controlled or 'regulated' water storages, enabling water to be released when it is required. These fees are payable by customers with regulated surface water licences.
6. These fees are payable by customers with unregulated surface water licences.
7. These fees are applicable to groundwater diverters and payable by customers with groundwater licences.
8. For more information on our diversion fees and charges, please see our fact sheet at www.gmwater.com.au/pricing
9. The Water Share and Allocation Application fees recover the application fees prescribed by the Water (Resource Management) Regulations 2017 (Vic). These fees are collected by GMW but payable to the Department.
10. These fees are prescribed under the Water (Lake Eildon Recreational Area) (Houseboats) Regulations 2013 (Vic).
11. Water (Resource Management) Regulations 2017 (Vic).
12. East Loddon North and West Loddon prices applied for Infrastructure Access and Water Allowance Storage are as per Division 1. There are 4 Divisions and adjustments are made for the other Divisions as applicable. Please refer to the "Tariff Procedures" on our website: www.gmwater.com.au/pricing
