APOLOGIES	Susan Weardon, Stuart Young & Peter Hacon (CG WSC Members), Peter Clydesdale & Mick Souter (GMW)

Main Topics Discussed

Connections Update
<ul style="list-style-type: none"> • Gave the WSC member an update on the project. They discussed changes to the PCG with a new chair and a change in GMW Board member. • They also gave an update on the Operational Rules, spoke about some innovations that are in the discussion with GMW, briefed on the Crown Land dealings, discussed the 2017 winter Works program and gave an update on the Reconfiguration Plans – the number and progress
Water Resource Update
<ul style="list-style-type: none"> • Provided the WSC an update on the Water Resource position and the outlook for the season • All systems have a seasonal Allocation • Storages are in a better position than this time last year • Rainfall outlook not as good as this time last year • Early reserve for 2018/19 established in the Murray System and partly established in the Goulburn System • Risk of spill is still high on the Murray System and above the trigger point on the Goulburn System
Planned Winter Works
<ul style="list-style-type: none"> • Discussed with the members about the large winter works program in Central Goulburn and how works were progressing well with June being a dry month so all program should be finished before the irrigation season starts
