Main Topics Discussed

Water Resource Update

- Provided a resource position update.
- Some healthy discussion relating to the progress of the Broken Reliability Group, challenges, options, and motions were discussed in depth.
- Committee requested the background work already undertaken by the Broken Reliability Group to be made available to them.

Groundwater & Streams Update

- Provided an update of the resource position.
- An update of the development and implementation of the West Goulburn Management Plan
- explained the current salinity sampling program in the SIR and presented some cost saving initiatives for endorsement. The Committee supported the amendment to the current regime and offered some suggestions for consideration.
- An update on the Watermatch launch was received positively.
- The Committee was informed on the proposal to remove of the 20% loss of entitlement in a downstream unregulated trade. This was endorsed unreservedly by the committee.

Annual Pricing Review 2017/18

- Presented the background rationale that formulates our pricing and explained the regulations that define this process. There was some discussion and questions were answered to the Committees satisfaction.

Customer Survey Results

- General discussion around the survey results and the positive level of satisfaction with GMW.
